

Excavator HJ300/480

3000 series
4000 series

The HJ **Excavator** is designed to dig either in forward or reverse.

Dual cutting edges include one serrated and one smooth to tackle tough jobs or delicate work. The serrated cutting edge makes short work of digging in hard soils and is great for serious excavating. The smooth cutting edge is great for sod removal and peeling to a desired depth.

Its innovative flip back design allows for forward or reverse excavating.

Standard Features:

- Hydraulic Control
- Push or Pull Digging
- Ventrac Minute Mount System

Optional Feature:

- Rear mounting with 3-Point Hitch and 3-N-1 adapter
