

Slip Scoops

HE300/480

3000 series
4000 series

Ventrac **Slip Scoops** are a must for any Ventrac owner. The scoops are great for transporting material such as soil, sand, gravel, mulch, debris, snow, and much more. Used for landscaping, excavation, backfilling, leveling, digging and grading, the slip scoops are an indispensable attachment from construction sites to your own backyard, allowing you to say goodbye to your old wheelbarrow.

Ventrac Slip Scoops are hydraulically controlled from the driver's seat, allowing for smooth, effortless operation. The Slip Scoop is designed to sit upright after detachment, with the lift arms in the proper position for direct reconnection when the scoop is used again.

The Slip Scoop attaches with Ventrac's Minute Mount System, allowing for attachment changes in a snap.

Standard Features:

- Hydraulic Actuation
- Ventrac Minute Mount System

Optional Feature:

- Rear Mount with the 3-Point Hitch and 3-N-1 Adapter
