

Snow Blower KX523

4000
series

The 52" wide Ventrac KX523 Snow Blower is built for commercial snow clearing operations of sidewalks, driveways, and other areas. A two stage snow blower, the KX523 features a 16" diameter solid auger for best snow transfer, a large 20" diameter fan, and the ability to move 4500 pounds of snow per minute at distances up to 40 feet. Standard features include adjustable cast iron skid shoe discs at the rear, high carbon hardened steel shoes at the side, and a reversible high carbon hardened steel cutting edge.

The hydraulically activated discharge chute can rotate 220 degrees, all from the convenience of Ventrac's exclusive S.D.L.A. control system. Chute deflection is manually adjustable. An electric chute deflection controller is optional.

Shown with optional Deep Snow Auger Kit

Standard Features:

- 2-Stage System
- Double spiral serrated auger
- Double hinged chute deflector with optional electric actuator
- Standard hydraulic controlled
- 220 degree rotation discharge chute
