

# Terra Rakes

## KR502/702

3000 series  
4000 series

Ventrac KR **Terra Rakes** perform a variety of landscaping tasks. From soil preparation, leveling ground, to removing rocks and debris, the KR502 and KR702 work with ease and efficiency.

The curved tines on the Terra Rake can be used in either direction. Unlike pull-behind units, Ventrac Terra Rakes are front mounted, allowing the operator to keep material from being driven over. This minimizes compaction as well as making the Terra rake very easy to use. The Terra Rake can also be mounted to the rear 3-Point Hitch with the Ventrac 3-N-1 Adapter for pulling material.

Front gauge wheels are adjustable front-to-back. If a wider surface area is needed, optional 10 - inch extensions are available, giving the operator an additional 20 inches of surface area.

### Standard Features:

- Hydraulic Power Angle left or right
- Adjustable Front Gauge Wheels
- Ventrac Minute Mount System

### Optional Accessories:

- 10 inch (25 cm) extensions
- Hydraulic Height Adjustment Cylinder (requires 12 Volt Switch/Plug)
