

VERSA-Loader 4000 series

KH500

The KH500 **Versa-Loader** functions much as you would expect a loader to do, but has more versatility than many other similar machines. The KH500 can quickly be changed from a loader, bucket or fork to a posthole digger or tree auger. Three different accessories fit the Versa-Loader. Accessories can be removed and replaced in just minutes.

Loader Accessories:

- Post Hole Digger
- Tree Auger*
- Pallet Forks

Tractor Accessories:

- Rear Weight Brackets
- Counter Weights
- Foot Pedal

* to be used with slow motor drive only

Standard Features:

- Ventrac Minute Mount System
- Intermediate roll bar for added operator protection
- Joy Stick Operator Control
- 5 cubic ft. (.14 cubic meters) bucket

Note:

Ventrac KH500 loader attachment **can not** be used with:

- (a) The Ventrac Cab
- (b) Dual Wheels
